Profile

I am a GDC registered Specialist in Endodontics. I graduated from the University of Manchester and completed my specialist training at Kings College London, graduating with distinction. I have also worked in general practice and carried out further hospital training in Oral Surgery, Paedodontics and Restorative dentistry. I am passionate about my work and enjoy the technical precision involved in Endodontics and Endodontic Surgery. I am also keen on improving the field of Endodontics and my research has been published in several international journals. I taught on the Specialist Endodontics Programme at Guy's Dental Hospital (King's College London) as a Senior Clinical Teacher between 2016 - 2022. I have established an endodontic referral service at two different dental practices and am a partner at Brigstock Dental Practice. I continue to enjoy teaching and regularly lecture and have my own online and hands-on endodontic course.
